PRATER POINTS

+ Pray that you will be highly recommended to the people that will benefit from what you have to offer in life.

+ Pray that such recommendations will take you from obscurity to limelight.

Then one of the servants answered and said, "Look, I have seen a son of Jesse the Bethlehemite, who is skillful in playing...and the Lord is with him.

- 1 Samuel 16:18

It has been said that between you and the person you need to see are just four people. It will shock you to know that, for the things you are praying about, someone knows someone that knows someone that might just have the answer. If you think back to some of the things you have received in life and the people you have met in life, you will realize that you were introduced or recommended to them by someone— for some of you, even the person you married came through a recommendation. Truly in life, a good prayer to pray is to come "Highly Recommended."

Imagine attending a job interview where you come highly recommended... We heard about a lady in our church recently that a friend called to say they needed her services somewhere, and when she got there, they said they were not going to interview her because she came highly recommended. Therefore, if recommendations are that important in life, then you need to give thought to what you do and how you do it - put in your best, be outstanding, be friendly, maintain good relationships, keep acquaintances with people, because you just never can tell who will recommend you tomorrow.

From our story, it may have been possible that David didn't have a one-on-one with the person that recommended him to the king; he may even not have known him at all, but the person nonetheless, must have observed him over some time. David didn't know that his services were needed in the palace, so he didn't apply for the job; however, he was highly recommended and that basically turned his life around. Who knows if the person to recommend you for your next job is observing you right now? Who knows if someone that will recommend you to your wife or husband is around you right now? Remember, one recommendation can take you out of obscurity (from following sheep) to becoming a celebrated hero!
